

## 1. Vorlage wählen

## Erste Schritte

The screenshot shows the LibreOffice Start screen. On the left is a vertical toolbar with icons for creating a new document, opening a recent document, opening a template, and opening a recent document. The main area has four buttons: 'Neues Dokument', 'Neu aus Vorlage', 'Vorvorlage öffnen', and 'Reiniger Start'. A red arrow points to the 'Vorvorlage öffnen' button. Below the buttons is the text 'Kalender.org'.

Neues Dokument

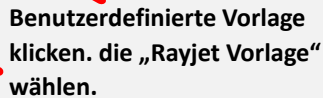

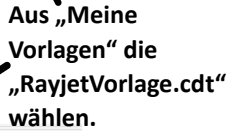

Neu aus Vorlage

Vorvorlage öffnen

Reiniger Start

Kalender.org

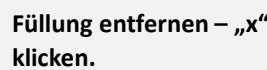

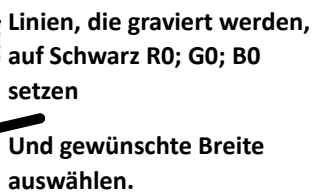

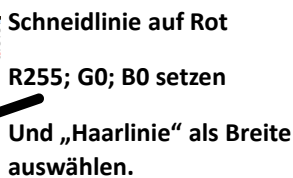

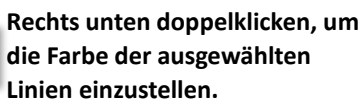

## Neue Vorlage wählen

## 2. Werkstücknullpunkt

[illegible]

### 3. Schnitt- oder Gravurlinien erstellen

**Zum Gravieren „mm“ wählen und gewünschte Breite.**
